OSHA Docket  
Docket No. H-122  
Room N-2625  
200 Constitution Avenue, NW  
Washington, DC 20210

To whom it may concern:

I am against the proposed OSHA regulation. I can't see what good it will do.

The government is closing down things too tight and it is not necessary. I think restaurants that have designated smoking areas do more business.

OSHA should work on truck, bus and automobile fumes instead of smoking.

Sincerely,

Isaac Taylor
